

Howards Phillip Hall: Room 113 ~ Phone: (407) 823-5130

Go Knights!!!

Join the SARC Peers in their efforts to assist the Alzheimer's Association.

Over 5 million Americans are affected by the Alzheimer's disease. This is a disease that affects one's brain. The symptoms include lack of judgment, memory loss, and speech problems. There are several reasons why one could have the Alzheimer's disease. The most common one is age, but heredity and head injury can also be risk factors. The Alzheimer's Association is a non-profit organization that has started a cause for people affected by this disease. This fall the SARC peers have decided to be a part of the cause and we will be participating in this year's Memory Walk. If you would like to be part of the SARC team please email Kathy at sarcpeer@mail.ucf.edu to get more information.

Mark your calendars
